In recent months Rotarians have been opening many new opportunities. Much of the change has been forced upon us by circumstance – clubs have found new modes of meeting, new community projects and new methods of fund raising.

In 2020-21 we will be navigating a new Rotary world as we try to understand the changes that are temporary and the changes that will become a permanent part of our lives.

For us it is Rotary that remains a steadfast part of our lives. As the world changes our friendships do not. As our communities change the need for Rotary service does not. As the nature of help required from us changes, our desire to help does not.

Rotary clubs in District 9810 have risen to the challenge posed by our changing times and, I'm confident will continue to do so.

This website is a new District Director – it represents yet another change. Here Rotarians will find all the traditional District information and a new look and feel. Please bookmark the site for easy reference and make sure you are registered for the Members Only area so you can easily find your Rotary friends and colleagues.

### Supporting the Environment Becomes a New Area of Focus

The Rotary Foundation Trustees and Rotary International Board of Directors have both unanimously approved adding a new area of focus: supporting the environment.

More than \$18 million in Foundation global grant funding has been allocated to environment-related projects over the past five years. Creating a distinct area of focus to support the environment will give Rotary members even more ways to bring about positive change in the world and increase our impact.

Supporting the environment becomes Rotary's seventh area of focus, which are categories of service activities supported by global grants. It joins peacebuilding and conflict prevention; disease prevention and treatment; water, sanitation, and hygiene; maternal and child health; basic education and literacy; and community economic development.

Grant applications for projects that support the environment will be accepted from July 1, 2021. Grants for community service projects that also support the environment will be accepted from July 1, 2021. Grant support for the new area of focus.

## Missing Rotary Member ID Report

The following list shows all members that currently do not have a Rotary Member ID specified, which is needed to synchronize changes under the new RI Integration system. Note that ClubRunner automatically populates the Rotary Member IDs based on a search on Rotary's database. This search must return a unique record that matches both first and last name in order to update the ClubRunner profile. For any names listed below, you can manually update their Rotary ID by looking them up through the Rotary International website under Member Access.
