

Rotary Club of Sandringham's Food Drive on behalf of BayCISS

BayCISS (Bayside Community Information and Support Service) is currently providing increased emergency relief. One crucial aspect of this in response to COVID-19 is delivering boxes of food; between 70-100 per month.

Like all clubs currently, our capacity to do physical fundraising or provide support is limited but we were thrilled to provide support by collecting food from our community on behalf of BayCISS.

Last week, 10 club members in five cars collected FIFTY BAGS of food! The relevant permits were be issued, and protocols followed. We called each donor as we arrived, opened the boot and the goods were placed inside buy the donors.

To get the ball rolling, we placed an ad on our community hub, our Face Book page and website and set up a link where folks could register. As it happened it was a gorgeous sunny day, and we were happy to be "legitimately out and about"! Our plan is to repeat this in the near future as needed.
