

## Face Masks for Personal Use or For Sale

Peter Cole from the Rotary Club of Belgrave, has been working with experts in the field to design and make the most practical and comfortable face masks for personal protection during the pandemic.

The masks allow the wearer to breath, see each other and stay safe from droplets in the air. They are light weight, anti-fog, and glasses can be worn comfortable underneath. The masks have been designed by a Melbourne based optometrist.

Rotarians may be interested in these masks for personal use, for use in their businesses or as a fundraising opportunity. Recommended retail price is \$30.
